

SAYS DEATH IS UNREAL

PROVES THAT DEAD STILL LIVE

Remarkable evidence that there is no death, there are no dead, is offered by Lloyd Kenyon Jones, Room 1235, 535 S. Clark St., Chicago, in his book entitled "God's World," in which he shows how, through God's own law, the spirits of those who have passed through the portals of death can and do communicate with those on earth. One should be cheered by the thought that loved ones have not been transmitted into cold, unemotional, individualities by death, for God's door is always open between earth life and eternal life, where we all will be united forever. In his illustrated booklet "Communication," he presents his view of life, here and beyond the grave, which will enable you to understand "God's World" and show you how to obtain happiness and a fuller understanding of life here and in the hereafter. Simply send your name to the author at the above address and the book will be sent to you free of all charges.—Adv.

SUNNYBROOK FARM MONDAY

Edna Park Will Play Rebecca in Pleading Drama.

Commencing tomorrow evening, the Edna Park Players will offer to the patrons of the Pastime theatre the beautiful rural drama, "Sunnybrook Farm." The story is by the author of "Mrs. Wiggs of the Cabbage Patch," and the original production toured the country several years ago, making an exceptional reputation as a box office winner at all of the theatres where it played.

As Rebecca, Edna Park will portray a role in which she received much favorable comment from the press of Miami, where the company repeated the play with several extra performances. In this play, several new faces will be shown the patrons, as this piece calls for the entire acting staff of the players. The company has also augmented their roster with local talent by engaging the services of a number of Pensacola children. New scenery has been built and painted especially for "Sunnybrook Farm," and the theatre goer is promised the features that go to make the play a real Broadway production. The players will give, in addition to their regular Wednesday matinee, a special matinee of this splendid play on Tuesday, and to give the school children ample time to attend, the curtain will not rise until 3:15 o'clock. Immediately after the Tuesday matinee Miss Park and her players will entertain all school children on the stage.

JOHNSON ATTACKS JAPANESE TREATY

California Senator Believes Colby Is Acting Hastily.

(By Associated Press) WASHINGTON, Jan. 29.—Open attack on the proposed agreement between Japan and the United States as to the status of Japanese in this country was made by Senator Johnson of California today in a statement criticizing what he said was provided for in the tentative plan worked out here by Ambassadors Shidehara and Morris.

The plan is now before the two governments, and has not been made public in Washington or Tokyo. Senator Johnson declared, however, on the basis of statements "from authoritative sources" as to its provisions that its result "would be a continuance of Japanese immigration and increase in the Japanese population in the west." Secretary Colby, who conferred during the day with President Wilson, refused to make "casual" answer to the senator's statements. The Japanese agreement, he said, had not been discussed during the white house conference and he added that Senator Johnson, while "undoubtedly sincere," was "proceeding from a number of erroneous assumptions" in what he had said.

Mr. Colby has just finished reading the draft agreement submitted by Ambassador Morris. The two ambassadors completed it during his recent visit to South America. Senator Johnson said the plan would in effect "abrogate and destroy" the allied land law recently voted by the people of California. It would also, he said, provide as to Japanese exclusion for another "so-called gentleman's agreement which does not exclude."

Such a situation, the California senator said, was "intolerable," and he added:
